DANBY MARBLE

SOURCE: NORTH AMERICA

Danby is one of the oldest quarried marbles in the US. Many of the Washington DC monuments are clad and sculpted in this white marble with soft golden veins and medium color range. The classic warm veining and wide variety of finishes available, make this stone highly versatile in interior and exterior applications

TECHNICAL DATA

ASTM 97 DENSITY	169.7 lbs/ft ³
ASTM 97 ABSORPTION	0.06%
ASTM C170 COMPRESSIVE STRENGTH	1340 lbs/ft ² wet
ASTM C880 FLEXURAL STRENGTH	240 lbs/ft ² wet
ASTM 353 ABRASION RESISTANCE	169.7 lbs/ft ³

AVAILABLE APPLICATIONS

- ARCHITECTURAL ELEMENTS
- MOLDING
- TILE
- MOSAICS

CONSIDERATIONS

VARIATION	LOW
ACCEPTABLE TRAFFIC	HIGH

CARE AND MAINTENANCE

- High acid sensitivity is a property of marble. Care must be taken in the presence of acidic foods and cleaning products.
- Low abrasion resistance is inherent in most marbles. Light scratching will occur with exposure to abrasives. A patina will result over time. Doormats are recommended when used as flooring.
- This marble has a low to moderate absorption rate. It is recommended to seal this material prior to use to allow for additional time to “clean up” the spill, before it has time to result in a stain.
