

# ROUGE ANTIC MARBLE

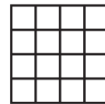

SOURCE: **FRANCE**

Few marbles carry the kind of provenance that Rouge Antic does. Quarried in France and used in the construction of Versailles, its deep terracotta red ground is marked by scattered white veining and dark mineral inclusions that speak to the stone's complex geological character. It is a material with presence and history in equal measure, as well suited to contemporary installations as it was to the grand interiors that made it famous.

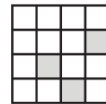

COLOR: **ROUGE ANTIC**  
STONE TYPE: **MARBLE**
