MENORCA MARBLE

SOURCE: NORTH AMERICA

Menorca is a dramatic marble with rich characteristic veining and a varied brownish-gray color range. It's bold patterns and waves call to mind the bluffs of the Mediterranean coast for which it's named, making it a stunning feature for any space.

TECHNICAL DATA

ASTM 97 DENSITY	167.4 lbs/ft ³
ASTM 97 ABSORPTION	0.36%
ASTM C170 COMPRESSIVE STRENGTH	18,070 lbs/ft ² wet
ASTM C880 FLEXURAL STRENGTH	900 lbs/ft ² wet
ASTM 353 ABRASION RESISTANCE	45.2 lbs/ft ³

AVAILABLE APPLICATIONS

ARCHITECTURAL ELEMENTS
MOLDING
TILE
MOSAICS

CONSIDERATIONS

VARIATION	HIGH
ACCEPTABLE TRAFFIC	HIGH

CARE AND MAINTENANCE

- High acid sensitivity is a property of marble. Care must be taken in the presence of acidic foods and cleaning products.
- Low abrasion resistance is inherent in most marbles. Light scratching will occur with exposure to abrasives. A patina will result over time. Doormats are recommended when used as flooring.
- This marble has a low to moderate absorption rate. It is recommended to seal this material prior to use to allow for additional time to “clean up” the spill, before it has time to result in a stain.
